Project Sample 1: Remote Team for a global telecom-vendor

CUSTOMER	DURATION	TEAM SIZE	DELIVERY MODEL
TEOCO (Israel)	8+ years	21 at peak	Dedicated Team

BUSINESS PROBLEM

TEOCO is a global company headquartered in USA which provides planning, assurance, analytics and optimization solutions for telecommunication networks worldwide. For customization and support of their products in more than 100 countries it needs mobile teams of high-qualified software engineers, who are able to work independently and resolve complex technical problems at customer's locations

SERVICES PROVIDED

One of such teams has been placed in Kharkov since 2008. The team performs support and maintenance of specific Customer's applications (fault-management, ticketing, integration platform) and provides system integration services for TEOCO Netrac Gold Suite products.

The team performed more than 100 successful projects in Netherlands, Spain, Israel, Egypt, UAE, India, Australia and other counties.

TECHNOLOGIES

- Java EE
- Oracle WLI
- Sybase
- BMC ARS Remedy

Project Sample 2: Web Development

CUSTOMER	DURATION	TEAM SIZE	DELIVERY MODEL
New York Road Runners (USA)	6 years	7 at peak	Dedicated Team

BUSINESS PROBLEM

NYRR is dedicated to promoting the sport of distance running, enhancing health and fitness for all, and responding to community needs. The NYRR organization provides a number of international competitions, the biggest one is The ING New York City Marathon. Organization of such events requires a lot of information systems which have to demonstrate high availability and performance.

SERVICES PROVIDED

Telesens has implemented several projects for the ING NY City Marathon:

- Enterprise Portal
- Public Website
- Athlete Tracker
- Team for Kids Charity Portal

TECHNOLOGIES

- ASP.NET 1.1/2.0/3.5, C#
- SQL Server 2005/2008
- HTML/XHTML, CSS, XML, XSLT
- SQL Reporting Services
- Google Maps API
- Facebook API, Twitter API
